

Year 4 Summer

Hello everyone!

Welcome back. ☺ We hope that you have had a relaxing Easter break. We are ready for a full term of learning this summer and are busy preparing for our multiplication check.

Maths

We will be continuing to focus heavily upon our times tables as we are getting ready for our multiplication check in June. More information will be provided closer to the time. Children will also be exploring shape and statistics in their daily Maths lessons. In Year 4, the weekly homework is set on a Monday and the children have one week to complete this. Please encourage them to do this.

English

This term, we will be linking our writing to our thematic learning with a rainforest theme. We will continue to ask children to think carefully about their punctuation throughout their writing lessons. Every child will have a set of spellings to practise each week, we encourage them to use them in their work. It would be great if parents/carers could listen to their children read daily in order to help them with the language and vocabulary shared in a text.

Science

In Science, we will look at 'Animals including humans' where we study the digestive system, teeth and food chains. We will also look at living things and their habitats.

PE

This term, the children will be taught a range of skills with Soccer 2000! We aim to try and get outside as much as possible.

Thematic – Under the Canopy

Our Thematic learning covers a range of the foundation subjects in the National Curriculum with a key focus on Geography and History this term. This will all be based around the rainforest where we will learn and discuss the importance and significance of it.

In preparation for our new learning, you could discuss your family history and gather some family photos to share in our lessons.

RE

The children will be exploring 'Places of worship' and why they are important to people. They will have the opportunity to ask questions about the beliefs and values.

MFL

In Year 4, the children will continue to learn French this term. They have been working really hard with Miss Flanagan to practise speaking French and they are beginning to write too! ☺ Children enjoy learning through singing and talking with their talking partner.

PSHE

During the Summer Term, children will look at 'Health and Well-being'. We will explore how they can take care of their hygiene levels and we will be encouraging children to become more independent as they grow.
